Subwoofers & Separates

Juggernaut Series II -maximum SPL for the street or competition

- 9" wide magnets for higher gauss and greater flux density
- Double stacked magnet for street versions (1500 Watts RMS continuous)
- Triple stacked magnets for competition (4000 Watts -burst only)
- Multi-layer spider assembly variable depending upon application
- 4 different voice coil configurations from dual .5 ohm to dual 2 ohm
- Radius venting on back plate provides direct cooling to the voice coil

Dreadnaut -the finest combination of SPL and Sound Quality

- 240 ounce double stacked magnets
- 3" Aluminum voice coil, dual 2 ohm
- Multi-layer spider assembly mounted mirror image for precise linear excursion
- 12 spoke rigid cast aluminum frame
- 1200 Watts RMS power handling

"P" Series (2.0 / 2.5 / 3.0)

- Classic style, outstanding performance
- Voice coils ranging from 2" to 3" diameters, dual 4 ohms
- Flat-spider suspensions
- Double stacked magnets
- Works well in either sealed, ported or band-pass enclosures
- 300/500/700 Watts RMS power handling
